XIIV. COMMENT (LIST CRITICAL NEEDS IN IMMEDIATE NEEDS SECTION)

Garbage is starting to pile up. Dumpster service is suspended due to flooding at parish land fill and nowhere to take it. Laundry is starting to pile up. Linen service is lined up but not running route yet.

3 patients were transported via ambulance to hospital.

Generator is good, fuel is good, community water and bottled water available. Dialysis patients are scheduled for Tuesday service.

Facility requested help placing 15 trac patients and beriatric patients so they could receive better care.

V. IMMED	IATE NEEDS
tem#	Description
	Facility requested help placing 15 trac patients and bariatric patients so they could receive better car Discussed with medical staff at EOC. They were working on a solution.

XIIV. COMMENT (LIST CRITICAL NEEDS IN IMMEDIATE NEEDS SECTION)

Conducted inspection with 3 fire marshal representatives and 1 representative from Health Standards. Fire marshals office will address crowed conditions, spacing of patients, and establish occupancy for buildings. They will provide building occupancy to me once determined. They are addressing storage of some hazardous materials with medical supplies. They will require facility to provide fire watch protection for the facility.

Health standards will be addressing patient care, staffing, supply needs, and staffing needs.

I verified portable potties are being serviced everyday. Laundry is starting to be serviced. Garbage is still an issue. Requested hand sinks to be placed in prep areas. Temp log was reviewed. Cooler and freezer temps monitored. Food log records food temp as it is prepared and ready for service. Plates are assembled and immediately served. Dialysis patients were successfully transported off site for treatment. Come patients have expired at facility. Corner was on site for a pickup while I was conducting inspection.

	<u> </u>	

Please list each deficiency cited during the survey. The surveyor who writes the deficiency will QA their product and be listed as 1st QA Reviewer. A second surveyor will QA the product and will then be listed as 2nd QA Reviewer.

OA Guidance for all deficiencies, at all levels:

- Findings must be clear and concise and support non-compliance with the deficiency being cited. This is to include verifying the correct deficiency has been cited.
- Ensure Principles of Documentation are followed throughout the deficiency.

The following will apply in regards to who will be required to QA the final report:

- Condition Level, Harm Level, and IJ Level deficiencies are to be reviewed by field management (FOM/Supervisor) prior to sending to the desk.
- Standard Level deficiencies are to be reviewed by a surveyor. If possible, please ask a surveyor certified in the program.

**QA of the final product will not be captured on the 670 as this is not to be considered actual survey production time. This time will be captured on the activity report by the individual performing the QA of the final report. Please note: If revisions are needed following the QA of the final report, the time spent on revisions is to be captured on the 670 and on the activity report as survey production hours.

Date and Time	Source and Documentation Site Survey, Exit: 08/27/2021
08/27/2021 at 2:00 p.m. Evacuation info	Entry into site. There was signage noting the site of an emergency shelter outside of the building. Denise Boscareno, Adm, Director of Ops (225-485-5877, dboscareno@lahcc.com) was identified as the person in charge. She said the owner of the 7 NF instructed her to evacuate all 7 facilities. She said they decided to start with 3: South Lafourche, Houma, and River Palms. She said SL had about 80 residents, Houma had about 120 residents, and RP had about 165 residents. She said they had 3 trach residents, who were not vent dependent, but they did not feel safe to bring them here so they were trying to get them in other facilities. She said Trinity in Slidell was looking like the place so far. She said she had also spoken to and Lallie Kemp about the trach residents. She said they had over 700 blow up mattresses with linens ready to set up. Surveyor observed about 350 mattress blown up with linens and pillows already set up. She said after they got the 3 NF listed above in the shelter, they would reassess the need to evac more residents/homes. She said they would evac in the following order: Maison Orleans, Maison Davilla/Harvey, West Jeff Healthcare, and Park Place Gretna. She said she did not think Park Place would evac because they had generators and could shelter in place without fear of flooding. She said each resident was packed with clothes and toiletries for 5 days, including medications. She said the medical director would be onsite in the morning.
staffing	She said each facility was bringing and providing their own staff. She said they currently had 6 RNs and 3 LPNs onsite, all Administrative nurses. She said they had commitments from staff who were coming and they had signed contracts agreeing to work the shelter, if needed. She said they would work 12 hour shifts and they would be housed in 2 areas. One area was on the grounds, separate from the residents. The second area was a local campground, Camp Living Waters, where staff could bring their family so they felt more comfortable to be available to evac and work the shelter. She said Camp Living Waters could house upwards of 200 people. She said the Administrative nursing staff would be the back up staff. She said all staff coming to work included: nurses, CNAs, office persons, housekeeping, and therapies. She said there was more but she couldn't think of them right now. Surveyor observed the separate quarters onsite for staff to stay/sleep.
food	She said the company had an agreement/contract with a local church to provide food, like a catering company. She said she could not recall the name of the church right now. She said the church had trucks to cook the food. She said some food would be cooked at the church and brought over and some food would be cooked onsite. She said the church also had the food they would cook in storage and the NF did not store that food. Surveyor observed two gas stoves with ovens, two microwaves, one large chest type freezer, one standard refrigerator, one

Date and Time	Source and Documentation Site Survey, Exit: 08/27/2021
	4 hole steam table, grill with charcoal, two large cast iron cookers with burners, and blenders. She said they had back up food, snacks, and water. Surveyor observed dry foods, snack, and bottled waters (large amounts). There were no tube feeding residents at this time.
Infection control	She said there was no Covid-19 at any of the 7 facilities. She said residents and staff had been tested twice weekly d/t their parish positivity rates. She said they did have 25-30 new admits between all 7 facilities and those residents would be quarantined while onsite. She said there was one room dedicated to the quarantine residents so they could social distance and keep the infection control areas separate. Surveyor observed the quarantine area with beds socially distanced and numerous amounts of PPE available. She said they would not be doing laundry onsite. She said they brought linens and instructed
	residents to pack for 5 days. She said if they needed to stay longer, they had a laundry/linen company on contract who would launder the textiles.
General observations	The resident were being brought in via ambulances. They were being transported one at a time and when they came in they had a bag, a chart, and medications.
and supplies	She said the residents were coming in with their belonging, including meds and the medication carts were in route so they could lock up the meds.
	There were bathroom facilities in the building, to include toilets and showers. The NF had also set up showers and port a potty's for residents and staff. There were w/c accessible port a potty's available. The areas were all clean and with no odors noted.
	Observed trash bins and trash bags, hand sanitizers and sinks with soap, coffee pots, fans, ice chest, portable a/c units.
	There was ample linens, diapers, and wipes.
	There was ample cleaning supplies. There were fire extinguishers noted.
	The overall supplies were in two large warehouse areas and were labeled clearly and stacked upwards of 8' in height. She said they had actually just inventoried the supplies 2 weeks ago and were fully stocked. She said they had enough supplies to easily take care of 700 residents for 7 days currently on hand.
	She said if there were any issues with behaviors, they would contact the MD (onsite or PCP) and treat in house if possible or send out if necessary.
ļ	She said they were operating on power right now but had generator back ups.
	She said they were operating on city water and sewage. The ex mayor of the town was present with the church volunteers helping to set up. He said the water and sewage was set up with generators and they would not have any issues with either.
	Surveyor spoke to Inspector of Services for the city who was ensuring their services were in working order.
	Surveyor overheard a nurse tell the Adm that the Fire Marshall was onsite (surveyor did not

COVID-19 STATUS In an interview on 08/28/2021 at 3:10 PM Donise Boscareno, Director of Operations stated currently no COVID positive residents or staff. Boscareno, Director of Operations stated each resident and staff had 2 negative test this week. Boscareno, Director of Operations stated the residents were being monitored for s/s of COVID three times a day. Boscareno, Director of Operations stated had an area could use as Isolation if needed for residents. Boscareno, Director of Operations stated had a supply of rapid test kits available.

Number of COVID-19 positive clients:

- Prior to transfer: NONE
- Currently: (explain) NONE

Plans: (current positive or if clients/staff become symptomatic or test positive) Staff will be rapid tested and released from duty. Residents will be rapid tested and isolated in the shelter.

PPE Supplies available: N94 masks, Disposable masks, gloves (different sizes), Hand sanitizer Infection Control measures in piace: Handwashing stations, Hand sanitizer, masks available, encouraging residents to socially distance.

POWER SOURCE (receiving facility):

- A. Is facility operating on generator or municipal power: Municipal power
- B. If generator is use, is it owned by facility: Generator available, not currently in use, owned by facility
- C. If not owned by facility, who supplied generator: NA
- D. How much generator fuel on hand and what is process for re-supplying: Full, and owner responsible for resupply
- E. Is facility being cooled/heated as appropriate: Yes
- F. Is generator providing for cold food storage? No Check refrigerator for cold food.
- G. Is generator providing for full service food preparation: No
- H. Is generator providing for respiratory services (vents/suctioning/oxygenators): No

WATER/SEWAGE (receiving facility): Interview on 08/28/2021 at 3:45 PM

- A. Is water/sewer system full functional: Yes
- B. Is hot water for bathing or cooking available: Yes
- C. is water portable or is area under boil water order: Yes portable and city water available, no boil water advisory

SUPPLIES/EQUIPMENT: Observation and interview with Interview on 08/28/2021 at 3:45 PM

Donise Boscareno, Director of Operations stated:

- A. Check supplies on-site at facility:
 - Food / tube feedings / supplements: Adequate food and supplies observed
 - Medications:
 - Are medications on-site? Where are they getting medications? Yes, each facility brought their own medication carts. Observation revealed Medical records on chart racks near wall
 - Dressing Supplies: Observation revealed cases of N95 mask, boxes of gloves (size M and L), Adult briefs, PEG feedings
 - Laundry/Clothing: Contracted outside laundry service
 - Running Water: Running water city water and a huge water tank on the grounds
- B. Equipment for clients available: Yes, O2 concentrators, portable O2 tube feeding supplies
- C. How equipment is being sanitized: Sani Wipes
- D. What is ability of vendors / suppliers to continue replenishing supplies: The site had more supplies than needed. The site had supplies on hand and each facility brought supplies

RESIDENT/STAFFING:

- A. Are client's needs being met: Yes
- B. Call system functioning: No call system, but staff remain in assigned area during shift
- C. Any staffing issues: None
- D. How they are accommodating the change in # of residents/acuity: Schedule staff
- E. How they are accommodating the needs of residents:
 - Medical: MDs available by phone
 - Behavioral: MDs available by phone
 - Diet: Speech planed menus, responsible for consistency, all meals prepared low salt and low sugar
- F. Staffing assignment list for the next 5 days:

STRUCTURAL DAMAGE (receiving facility):

- A. Roof intact: yes/no Describe: Yes
- B. Water Intrusion: yes/no Describe: No
- C. Any other visible damage: yes/no Describe: No

CONCERNS: NONE

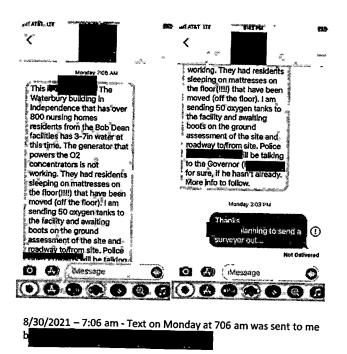

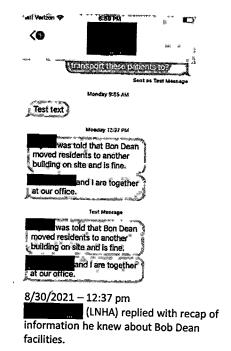

Monday, August 30, 2021

Ida passed through Baton Rouge around 1 am this morning. I ended up sleeping at the State EOC as I was concerned that if I went home I would not be able to make it back to the EOC. Around 6am I went out on the floor to obtain situational awareness for post-storm affects. Within 10 minutes of arriving on the floor, I was approached by who verbally that staff the NH-desks at the EOC. The individuals that typically staff these desks are from LNHA and from Health Standards. These individuals that typically staff these desks are from LNHA and from Health Standards. These individuals had not yet made it to the State EOC; I had assumed it was because shift change and/or trouble getting to the site due to storm damage. I then made several attempts to call the EOC was that ATT towers were down but Verizon was working intermittently. Individuals at the Health and Medical branch were also attempting to call these individuals using land-lines and Verizon cell phones. One of the individuals (cannot remember) was able to reach and an impromptu conference call was held with her to provide the information about the Nursing Home site was to verify and validate the information and identify what mitigation, and or other consequence management activities were needed. She reported that she had a POC at the site and would attempt to make contact.

Later that morning (around 8 am?)

Date and Time	Source and Documentation
Assignment	Received call from FOM at 3:00 p.m. to conduct onsite visit at 129 Calhoun St, Independence, La 70443
Arrival	On 08/30/2021 at 4:30 p.m., arrived on site for onsite visit.
Entrance	Surveyor was meet outside the facility by Debra Polk, CNA. She stated for surveyor to go inside because this "was not right". She stated people should not be treated like this, and this could have been better. She stated a couple of residents did not go to Dialysis today to her knowledge. She stated for the surveyor to go inside, and she did not offer further information.
	When surveyor enter the first melt/brick and cinder block, building there was a room the left with sleeping staff. The room to the right were several staff discussing residents' care. Surveyor asked who was in charge. Survey was directed to Donise Boscareno, Director of Operations. Donise contact information: (225) 483-5877.
	Donise stated there were currently 838 residents residing the facility. She stated there are 24 dialysis residents, and 3 trach residents (they were unable to send to another facility), and 6-8 bariatric (around 600 pounds who require 3 staff to assist).
	Donise stated 7 nursing homes evacuated to this facility. They are: South Lafourche Nursing and Rehabilitation, Masion Deville Houma, Masion Deville Harvey, Park Place, Masion Orleans, River Palms, and West Jefferson Health Care.
	She stated the facility has 7 days' worth of medication for each resident and the medication carts arrived at the facility. She stated the facility also has transport vans to transport residents to Dialysis.
	She stated OPH had conducted a visit today. She stated OPH was going to assist the facility with a dumpster to handle the trash. She stated the trash has tripled since coming the facility. She stated she has laundry set to be picked up tomorrow. She stated it was picked up last on Saturday. She stated the laundry is supposed to be cleaned and returned the same day. She stated OPH is also going to assist with cots for the residents. She stated currently residents are sleeping on mattresses on the floor. She stated there is no immediate plan to return to their home facilities.

Date and Time	Source and Documentation
	She stated the facility consist of 1 metal building, 1 cinder block building, and 1 metal/brick/cinder block building. She stated last night during the storm water rose above the foundation and about a 1" of water came into 2 of the buildings. She stated the evacuation was originally for a Cat 2 hurricane, but then they found out the Cat 3 hurricane and track has shifted. She stated residents were initially housed in 3 buildings, but when 2 of the facilities took on water they moved all but a few residents to one building. She stated staff cleaned up the water in one of the buildings, and they move some residents back into that building. She stated when the other area dries the rest of the residents would be moved into that building. She stated ambulatory or wheelchair residents were moved out of the buildings with water first. She stated after the last area is cleaned and dried the bed bound residents would be moved out.
	She stated the provider is currently running on generator power, and the diesel was refueled today. She stated the facility has shower access and is currently using port a potty.
	She stated the Dialysis residents are on the schedule to go tomorrow 08/31/2021 at 6:30 and 12:00. She stated the facility did not have phone service until later today to get those apts scheduled. She stated she had spoken with OEP already this morning related to Dialysis.
	Frank Edwards, Police Chief as onsite today as well. He stated he provided 50 cylinders of portable oxygen to the facility today.
	She stated the facility has hoyer lifts and all needed supplies for the residents. She stated the facility currently has enough food, and will restock food supplies tomorrow.
	She stated last night the facility had issues with staffing. She stated staff have left to go home to the camp, and they could not return related to trees on the room. She stated staff onsite could not go to the camp related to the trees on the road, and they slept in their vehicles.
	She stated each resident was triaged upon arrival. She stated each resident has a color coded wrist band which indicates which facility they reside at. She stated staff from each facility wear color coded shirts from each facility so residents know who their nurse is.
	She stated the facilities have about 13 residents who have behaviors/wandering. She stated they are assigned 2 staff at all times.
COVID	She stated the facilities are about 80% with resident vaccinations and 40% with staff vaccinations. She stated resident are not located 6 feet apart related to having to move residents when the water came into 2 of the buildings. She stated staff are in the process of cleaning up, and they would be moving residents to accommodate the feet. Frank Edwards, Police chief stated there were plenty of hand sanitizer for staff/resident use in the warehouse.

Date and Source and Documentation Time Observations Tour of the 3 buildings with operations manager. Multiple staff observed working in the buildings or outside the building. No large metal rolling doors were observed to open at this time. Metal/Brick/Cinder block building-Surveyor observed approx 20 residents residing in the building. Residents sleeping on mattress on the floor of the facility. Some residents observed wearing hospital gowns, paper gowns, personal clothing, or only a shirt and brief. Residents appear to be clean. Several staff observed cleaning up the room after water leaked into room. Several puddles of water observed around the room. 1-resident observed lying in a cot close to a puddle of water with water under his cot and getting close to his personal clothing. Director of Operations was notified of this during rounds, and she stated the resident would be moved now. CNA was observed changing a resident's brief with no privacy provided. Piles of dirty linens observed in the room. Director of Operations stated the linen was used to clean up the water, and would be sent to the laundry site tomorrow. No residents observed wearing a face mask. All staff observed wearing a face mask. Building smelled strongly of urine and dampness. Room felt comfortable temperature wise but very stuffy. Building #2 Residents observed sleeping on mattresses on the floor. Several residents observed in hospital beds. Residents observed to overcrowded in room. Residents' mattress/beds observed to be positioned less than a foot apart. Only about 5 residents observed wearing a face mask. All staff observed wearing a face mask. Medication carts observed in the room. Staff observed administering medications and taking care of residents. Residents appeared to be clean. Residents observed wearing hospital gowns, paper gowns, personal clothing, or only a shift and brief. Staff was observed attempting to apply face mask to residents. Building smelled strongly of urine. No water puddles observed in the room. Room temperature felt slightly warm and stuffy. Areas for showers and port a pottys observed located behind blue tarps for privacy. Building #3 Residents observed sleeping on mattresses on the floor. Residents' mattress/beds observed to be positioned less than a foot apart. Residents observed to be overcrowded. Only about 3 residents observed wearing a face mask. All staff observed wearing a face mask. Medication carts observed in the room. Staff observed administering medications and taking care of residents. Residents appeared to be clean. Residents observed wearing hospital gowns, paper gowns, personal clothing, or a shift and brief. Staff was observed attempting to apply face mask to residents. Building smelled strongly of urine. No water puddles observed in the room at this time. Wheelchairs observed located in the back of the room. 2 large fans observed in the back of the room attempting to dry the remaining water. Room temperature felt slightly warm and stuffy. Areas for showers and port a pottys observed located in another area for

privacy.

Date and Time	Source and Documentation	
	Multiple staff were over heard during rounds stating the situation was bad, staff felt neglected, residents were neglected, and saying the situation should have been better.	
	Concerns:	
	Residents overcrowded with mattress positioned less than a foot apart, Privacy, smell of urine, residents in multiple stages of undress (some with only shirts/briefs), puddles of water in one building(staff were in the process of addressing), 1 resident with puddle of water underneath his cot (was supposed to be moved immediately), infection control (majority of residents unmasked/no COVID precautions), building temperature comfortable slightly warm and stuffy, staff being over heard stating themselves and residents were neglected, and this was a bad situation.	
Contacts	On 08/30/2021 at 5:32 p.m., observations and concerns relayed to FOM. On 08/30/2021 at 5:48 p.m., observations and concerns relayed to and and an arrangement.	
	Directed to return onsite tomorrow at 9am.

08/31/2021 at 11:15 a.m., an entrance conference was held with Donise Bonascaro Director of Nursing Facility Operations. She stated she was over the 7 facilities that were housed currently in this structure. She stated each administrator was responsible for their own residents within this structure. She was quickly called away as there was a need in the back of the facility.

On 08/31/2021 at 11:20 a.m., an initial tour was conducted of the facility. The front office led to a smaller area where residents were being housed. This area I was told was Maison De Ville of New Orleans residents. There were some residents on cots and some with mattresses on floors. There were residents noted with oxygen concentrators. The mattresses were mere inches away from each other (less than 6 inches side by side on the main area). There was a mild smell of urine in the room. The residents linens appeared clean, most wore hospital gowns but some had on a tshirt and only a brief. On the far end of the room were some boxes of supplies on pallets. I was informed that this room was where the water had come in and they had to move residents out of this area. The floor contained several puddles in this area and the floor was smeared with mud and dirt. There was a smaller partitioned area for the locked unit for behavioral residents with approximately 20 or so cots. The next larger area adjacent to this room, when I walked through the door a strong smell of urine hit my sense of smell even through my mask. The staff were all appropriately masked and working at their tasks. There were nurses at their med carts and CNAs providing care. This room was a combination of facilities. There was only isles outside of all the beds as in a square. The beds were placed side by side with mere inches between them approximately 40 by 60 foot area with no isles or space other than 3-6 inches. These twin sized air mattresses were on the floor and the sheets had visible dirt from being treaded upon. Most residents lay on their mattress in the morass of bedding and people. Four residents were in their wheelchairs at the periphery waiting to go smoke. A noticeable change in the cleanliness of this room was noted as the isles were grimy and the scratch of dirt scratched beneath my shoes as I walked across the outer isles. There were several residents with clothes on but most had a hospital gown on. I spoke to a resident by the name of the who stated she had not had a shower or bath in 4 days and was wearing the clothes she arrived in. She stated she had not been offered an opportunity to get cleaned up as well. She stated all she wanted to do was go out and smoke a cigarette at the very least. The lunch served this day was ravioli, vegetables and fruit serving. An observation of the trays revealed the portions were underserved. The ravioli was 10 small noodles in a tomato sauce, the peas and green beans appeared to be approximately 1-2.

EXHIBIT

Sending Facility: Park Place Healthcare, LLC.

Site Visit: IDA1

tablespoons in amount and the fruit serving was approximately ¼ cup. These were consistent portions in the tray served to the residents at lunch meal. There was a breezeway to the next building which looked like a loading ramp in previous use. There were multiple residents out on this covered area smoking cigarettes in their wheelchairs attended by several staff members. There were no concerns here. Upon entry into the largest area of the facility which could be described in size to a gymnasium. The space was massive. The remainder of the residents were in this area. When I walked through the door the smell of feces and urine was the strongest out of all 3 areas. This was a powerful odor even with a mask on. There was a female resident on the floor right by the door in only a diaper and a tshirt. Multiple staff were sitting near her in an area for the West Jefferson Healthcare Center. This large gymnasium housed multiple facilities. A tour of this area revealed minimal isles and mattresses stacked right next to each other with mere Inches separating them. The vast majority of the mattresses were on the floor. Observations were made of a male resident laying on his mattress on the floor with only a diaper on and no sheet anywhere in site for him. Another male resident was in a tshirt and a diaper that was full of feces. There was a female resident softly calling for help and no staff could hear her. There was no way for the residents to signal to staff that they needed assistance in this sea of crowded together, cluster of mattresses on the floor other than yelling out for them. The non-verbal and softly spoken (in this loud gymnasium) would have to rely on staff checking on them. There was a male resident laying on a mattress on the floor naked and no sheet covering him. Staff were busy attending to lunch and other duties. There were bariatric residents which were on wooden beds with mattresses and there were also higher need residents with tube feedings and such in hospital beds in the back. South Lafourche area of residents appeared to be better cared for than other areas. An observation was made of nursing and CNA staff wearing purple shirts in the right back corner sitting at a table surrounded by nursing carts and supplies cut off from view of the residents. One resident could be heard calling out for help in this area of the purple designation and no one responded from behind the nursing carts to come help. The entire room did not appear to be conducive to properly caring for residents or providing privacy in doing so. There was an area of port a pottles to the far right side of the building, sinks and makeshift showers. The "kitchen area" was just a staging place for the getting out of trays. All the food was prepared outside with propane.

Upon completion of the tour a meeting was conducted with the Fire Marshal and the Public Health Inspector. After consultation with their respective upper managements the following would have to occur to allow to stay open:

- The facility would have to provide a fire watch, prove they can perform this task and only have one staff assigned to this task. The rounds would be done and documented every 30 minutes.
- 2. All the flammable materials (there was a large amount) be removed from the building.

Sending Facility: Park Place Healthcare, LLC.

Administrator: Patricia Taylor

Address: 535 Commerce St. Gretna, LA 70056

Phone #: 504-393-9595

Surveyor/ID:

Site Visit: IDA1

- 3. All exits would be available to the residents for use.
- 4. There had to be a spacing requirement between the residents.
- 5. The facility had to provide actual isles for the beds and residents.
- 6. The facility had to set a real capacity much likely they would be over capacity with the over 800 residents based on the size of the facility.
- 7. The facility would have to be in communication with the local fire department on a consistent basis for reporting.

The Public Health Inspector

- 1. The facility did not have a permitted kitchen.
- 2. There were no sinks outside where the food was being prepared.
- 3. The facility was not supposed to be preparing food outside.

On 08/31/2021 at 1:26 p.m., a conference call was conducted with All of these findings of my observations in what I had witnessed in my tour of the facility, my concerns with the unacceptable conditions under which these residents were being subjected to, the 4 deaths in the facility which I did relay reportedly 3 of which were end of life hospice residents, and what the Fire marshal and the Public Health Inspector had relayed. I was directed to continue the site inspection for the 7 facilities within this facility to complete gathering the required information.

On 08/31/2021 at 4:45 p.m., a phone conversation was conducted at the request of Mr. Bob Dean.

After greeting him with my name and working for Health Standards in the Louisiana Department of Health. He aggressively and pointedly asked me 2 questions about shelters of which I had no idea what he was talking about. When I answered I did not know, he started yelling the question "Who sent you?!" When I responded I would not answer that question, He repeatedly yelled "Who sent you?! Who sent you?! Who sent you?!" frequently interrupting me as I attempted to repeating his question, "Who sent you?! Who sent you?! Who sent you?! Who sent you?!" When I responded one last time I would not answer that question he said, "Get off my property! Now!" This surveyor then gathered her things, called transpired and left the facility.

Please note this facility site visit was not able to be completed due to the surveyor being trespassed from the property as noted above. A general assessment was done in the initial tour. The above information was obtained from ACO.

ENTRANCE

Sending Facility: Park Place Healthcare, LLC. Administrator: Patricia Taylor Address: 535 Commerce St. Gretna, LA 70056 Phone #: 504-393-9595 Surveyor/ID: Site Visit: IDA1 Entrance date/time: Entrance conference held with: Emergency contact person: _____ contact #:___ License capacity: Plan for returning to facility (what timeframe do you anticipate return?): ANY concerns about returning to facility? 8/30/21 3:31Pm Mr dean would you please call me about your residents in Independence. There are problems. This is LDH
8/30/21 7:30pm
Hello who the fuck is this
On the air wrangler please text me back oh my God text me in the air what a liar you are
Somebody told me you better watch it motherfucker you
Oh my god so my stole my goddamn phone

Monday 8/30/21 Hello Mr. Dean, did you intend to send these messages to someone else? This phone belongs

Thank you

Monday 8/30/21 No I did not you better get off my you you do you realize you're in a conspiracy theory with the federal government. Your is grass mother sucker eating pussy cocksucker please let me know if you got my text ?!??Whoever this is might be drunk right

8/30/21 9:04 PM

Please reply if you will do Portsmouth and Boston and whoever else you like to do and then if it appears that your in what ever God damn somebody stole my phone what a crazy with me when I've been how do you falling for all these months and saying what you do to people what is power your lower right eat some more is good Sonny let them in your face and your nose in your mouth oh wow text to wrong person somebody stole my god phone Put that in your pipe and smoke it somebody watching you right now and I don't know who it is somebody probably watching me what do you think I don't care do you why are you text me I didn't know that what about the hurricane is there a storm was a lot of rain is this crazy wow I cannot say enough about how much you not done OK and do I will do I think about doing

Answer me now please ma'am I don't know see ya smell the roses I like you but

9/1/21 9:26a

Dear secretary, I have been having troubles with for almost 2 years now. She conspired with the city of Plaquemine to some 17 complaints from one lady that her and her mother in the nursing home. She continues to harass me and threaten me with laws when I'm under a vacuolation with 900 people in independence Louisiana. She sent someone out yesterday to inspect I have a Croatian center which is not fall under the criteria of standard for payment. I am the only owner operator in Louisiana that has an evaluation center. It's a total of 90,000 ft.² and has it been approved by the fire marshal many times. I would like to have her terminated immediately for reasons that I spoke up above. She is also named in a federal lawsuit of conspiracy in the fifth district court of Louisiana located in Baton Rouge Louisiana. There's many other workersThat are responsible for the taking at my nursing home in Plaquemine. This is a major lawsuit with a sound total of \$200 million plus. Please be advised I am well and able and have many hundreds of millions of dollars to back me up that belong to me that is in the bank currently. What kind of regards Bob G.Dean. Postscript I would like a written copy of her termination it will happen immediately this is being forwarded to the governor of Louisiana in the presence of the United States President Joe Biden. Please respond immediately I would like to know what your Plans are momentarily

9/1/21 10:36a This is a stop order you are now under a federal restraining order respond you were being delivered that immediately call the state police off you're getting so far under you can't get out do you understand respond

This is a stop order you are now under a federal restraining order respond you were being delivered that immediately call the state police off you're getting so far under you can't get out do you understand respond

This is a stop order you are now under a federal restraining order respond you were being delivered that immediately call the state police off you're getting so far under you can't get out do you understand respond

So you're in the loop John Kennedy's office do United States senator is calling everyone that is possible to stop you from disturbing my Covid free restaurants besides that you would scare all of my employees away do you know the detriment you're called in to your own calls you're supposed to be in healthcare you've got a vendetta towards made it unbelievable you will not be good and you're not good Answer me now do you hear me

Loud and clear ma'am

More you don't respond the guilty you are you know you're wrong and you will go to court and have to explain to a jury in a federal judge what do you have done to me do you understand respond now

I would like to have a peaceful conversation with you are you available for a phone call ma'am please advise

The property now independence day evacuation center is now under federal marshal watch if anyone comment on my private property they will go to a federal containing area

Please reply

I will give you a update now the emergency preparedness is trying to save my 850 restaurants in independence Louisiana Mr. is trying to get in touch with the doctor if they set foot on my property is private a good friend of mine is a federal marshal they will be arrested please help me stop this horrible thing that's going on I'm trying to take care of all these people and get them back home. Again I'm so sorry to bother you Bob

9/2/21 9:30am Good morning, I understand that you and others took my patients away from the evaluation center and broke the fourth amendment of the constitution of the United States. The family members and responsible parties need to know where each and everyone of the people that y'all took unlawfully their names whereabouts and whether they're still alive or not. You can send that via text to my email. The federal government is aware of all the wrongdoing and will be in touch promptly. This was wrong and you know it a lot of trouble ahead for everyone that was involved probably will go to the spring court with no doubt. I need that information . Also we have pictures of the stealing of their persons without charge and our Covid test. Truly a holocaust Respond

9/2/21 2:52pm They are physically taking my residents out of the building they're breaking their arms and legs come on really I need a phone call they're hurting my people and they're killing them

Observations/ Interviews made on 09/01/2021	Observations made during rounds of the shelter on 09/01/2021 beginning at 12:30 p.m. Building #1: 35 residents observed in the room. Residents lying on mattresses on the floor. 4-residents observed with continuous oxygen. 1-resident observed with external ORIF device on his left leg. 1-residnet observed with IV antibiotics currently infusing. Staff observed in the room attending to residents. Residents observed wearing hospital gowns, personal clothing, or shirt with brief. Resident observed to be clean. 2-residents observed wearing a face mask covering their nose/mouth. No other residents observed wearing a face mask. Staff observed wearing face mask covering their nose/mouth. Resident care supplies (incontinent supplies, wipes, and hand sanitizer) observed in the corner of the room. No sink observed in the room. No restroom facilities observed in the room for staff or resident use.
	Building #2:

Date and Time

Source and Documentation

Transfer Location: 129 Callioun Street, Independence, La

95-residents observed in large metal room. 3-residents observed with continuous oxygen. Multiple staff observed assisting residents. Staff observed providing incontinent care to residents with the use of privacy curtains. Resident observed wearing hospital gowns, personal clothing, or only a shirt with a brief. No residents observed wearing a face mask. Staff observed wearing face mask covering their nose/mouth. Resident care supplies (incontinent supplies, wipes, and hand sanitizer) observed in the corner of the room. No sink observed in the room. Port a potty facilities observed located behind a blue tarp section to provide privacy.

Lunch was observed being serviced to residents included

Approx. 1 cup of chili

½ cup mixed veggies

½ cup fruit

3-4 packs of crackers

Building #2:

On 09/01/2021 at 1:20 p.m., an observation was made of a resident requesting assistance with incontinent care. Resident was not being assisted by staff. Staff was alerted to resident's request. Resident was assisted by staff.

On 09/01/2021 at 1:24 p.m., an observation was made of staff assisting a resident with incontinent care with the use of privacy curtains X 2. Resident care was still visible from 2 sides. Staff was observed no using hand hygiene after completion of care.

On 09/01/2021 at 1:30 p.m., an observation was made of a resident lying $\frac{1}{2}$ on their mattress and $\frac{1}{2}$ on the concrete floor. No staff were observed assisting the resident. Staff alerted and assisted the resident to get back on their mattress.

On 09/01/2021 at 1:35 p.m., an observation was made of staff having to kneel on the floor and the resident's mattress to assist with incontinent care. Staff did use privacy shield X 2 and sheet to block views of the incontinent care provided. Staff were observed wearing gloves during care, but staff were not observed using hand hygiene after completion of care.

Behavior unit:

On 09/01/2021 at 2:00 p.m., an observation was made of the behavior unit. Behavior unit was located in a walled off area (by paneling) providing a closed in area with entrance/exit door. 25-residents were observed located in the behavioral unit. All residents were observed lying on cots positioned less than a foot apart. No residents were observed wearing a face mask. All residents were observed wearing personal clothing. Resident observed to be clean. 1-LPN and

Date and Time	Source and Documentation Transfer Location: 129 Calhoun Street, Independence, La
	2 CNAs were observed in the unit taking care of the residents. Resident supplies observed in the unit with a medication cart. The LPN assigned to the unit stated all the residents were from River Palms Nursing Homes. She stated 2 residents had to be sent to the hospital related to behaviors. She stated 1-resident got into a fight with staff; 1-residnet got into a fight with some of the other residents. She stated no other altercations have occurred. She stated the residents had behaviors and were wanderers.
	On 09/01/2021 at 3:49 p.m., Central Management was advised to provide both staff and bus driver names and contact information and what location they were going for evacuated residents. He verbalized understanding and stated a list would be provided.
	Observations/Interviews were stopped related to need to assist with massive evacuations of residents for the shelter site.
09/02/2021	On 09/02/2021 at 07:30 a.m., the resident count included 65 stretchers and 60 wheelchairs.
	On 09/02/2021 at 08:51 a.m., the resident count included 62 stretchers and 60 wheelchairs.
	On 09/02/2021 at 08:34 a.m., a phone call was received from for the Office of Public Health. She stated all wheelchair resident would be sent to Region 2 MSN and residents on stretchers would be sent to Region 6. She stated an Ambulance bus would be leaving Lafayette at 10:00 am and could transport approx. 15 stretcher residents, and another ambulance bus would be leaving region 6 to assist at 9:00 a.m. Information was relayed to
	On 09/02/2021 at 09:13 a.m., the resident count included 62 stretchers, 61 wheelchairs.
	On 09/02/2021 at 09:29 a.m., a phone call was placed to Amelia Manor Nursing Home (337) 234-7331. Surveyor spoke with was received to their facility.
	On 09/02/2021 at 09:34 a.m., a phone call was placed to Courtyard Manor Nursing Home (337) 237-3940. Surveyor spoke with property points, DON and property points, Admin (337) 781-3213. They stated the facility did not accept resident property property points. They stated the resident was 650 pounds. They stated they facility could not accommodate the resident. They stated the resident was also received with no medical records or medical chart. They stated the resident was sent to the shelter in Alexandria. The Admin stated she spoke with NHA, (unsure of last name), and property pounds. Admin stated the facility cannot accommodate residents over 450 pounds, no tracks and no vents.
	On 09/02/2021 at 09:55 a.m., a phone call was placed to Camelot Brookside (337) 824-2466. Surveyor spoke with ADON. She stated resident was not

bed with nothing but a diaper on. The urine smell was very strong in this area of the orange color coded area. One lady looked in distress with her face contorted like she was crying as she weakly called out for help and staff do not hear her. Another resident lies in a corner halfway on halfway off his mattress on the floor with only a tshirt and a diaper on. One female resident from Parkplace was lying on bed with socks and a tshirt and nothing else, bare from the waist down. No staff are visible at this moment. Residents in the South Lafourche area appear to be well cared for, clean, clothed, no urine odor in this back area. River palms area one male resident was on the floor and staff were getting him back upon his mattress on the floor. The temperature in this area is hot and there are a few fans going. One resident is in a flop sweat, visibly struggling to breathe and hollering out for help. The staff of River Palms in the purple were sitting at a table behind the nursing med carts. They are well within earshot and do not even turn their heads. They continue to eat and no one acknowledges that they heard him. This surveyor asked for assistance with someone to help him. The staff sitting at the table instruct the CNA to go turn the fan in his direction. When she does he hollers he cannot breathe. No one gets up from the table. The surveyor asks who is the nurse for this resident and no one would answer. The surveyor asked the question 2 more times before a female nurse admitted she was. She got up from her seat and went to retrieve an oxygen bottle and nasal cannula for the male resident. The heat in the building has risen. Upon asking Ms. Donise Bonescaro the director she stated it was because the warehouse door was wide open to evacuate the residents going to the Central Management facilities. Please note the surveyor requested assistance from staff for all of the issues above as the tour continued.

ENTRANCE

Entrance date/time: 09/04/2021 at 12:30 p.m.

Entrance conference was attempted with the administrator on 09/04/2021 at 3:56 p.m. Ms. Patricia Taylor. She had bags under her eyes, appeared fatigued with slow movements and when questions were asked she had a faraway look and seemed distracted. If there was a word to describe her it would be exhausted.

L.R.S. 40:1577 APPEAL FROM ORDER

H. "Butch" Browning FIRE MARSHAL

When an order is made by one of the deputies or representatives of the Fire Marshal, the owner or occupant of the building or premises may, within three days, appeal to the Fire Marshal. The Fire Marshal shall, within five days, review the order and advise the owner or occupant of his decision thereon. The owner or occupant may, within five days after the making of affirming of any such order of the Fire Marshal, file an application with the Board of Review.

RULES FOR APPEALING TO THE FIRE MARSHAL BOARD OF REVIEW

- 1. Any application to the Board of Review shall contain the following basic information set off in organized fashion with captions indicating that the paragraph in question contains the following basic information.
 - The name of the applicant.
 - 2. A brief description of the facts.
 - 3. A copy of the order of the Fire Marshal which is being appealed.
 - 4. A reference to the section of the law or code being reviewed.
 - 5. A brief description of why the applicant feels the requirements of the Fire Marshal is not within the Fire Marshal's authority, or brief description of why the interpretation of the Fire Marshal is incorrect or what specific relief is required by the applicant.
 - 6. A list of the individuals who will be appearing before the Board, and a brief description of the testimony or information they will be providing the Board.
 - A list of all the documents which will be introduced or provided to the Board along with a brief
 description of the documents, and if possible, a copy of said documents.
 - 8. A list of each exhibit except for documents, and a brief description of the exhibit.
- II. Whenever possible, a notice of the meeting, date and place, and the agenda will be recorded in the Louisiana Register, however, whenever that is not possible, a copy of the meeting notice including the date, time and place, and agenda of the meeting of the Board will be published in the official notices of the official state journal; furthermore, a press release containing the same information will be mailed to the official journals of the cities of Shreveport, Monroe, Lafayette, Lake Charles, Alexandria, New Orleans, and Baton Rouge and any city or town in which the meeting of the Board is to be held if it is not one of the aforementioned major cities; and the same information shall be mailed to each individual who has notified the Fire Marshal of his desire to receive a notice of such appeal.
- III. A copy of the determination of the Board as prepared by the Chairman will be mailed to each individual who requests a copy of that specific determination as well as to the applicant.
- IV. The time delays for filing an appeal shall be those specified in R.S.40:1577 and 40:1578 1 D.
